TITLE OF INVENTION: POLYTRIMETHYLENE TEREPHTHALATE RESIN AND METHOD FOR PRODUCING THE SAME

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1510	\$300	\$0	\$1810	06/09/2010

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or <u>Fax</u> (571)-273-2885

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 310 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 310 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the applicant's representative, Mark Henry, on February 25, 2010.

The application has been amended as follows: Cancel claims 1, 2, 15, and 16.

Amend claim 3 to remove "of claim 1" from line 2.

Amend claim 3 to replace

(COOH) a

a catalyst comprising at least one titanium compound and at least one phosphorus compound selected from the group consisting of phosphoric acid, phosphorous acid, a phosphorous ester and a phosphorus compound represented by the following formula (4):

wherein m is an integer of 1 or 2, and each R independently represents

wherein n is an integer of from 0 to 3, wherein said at least one titanium compound and said at least one phosphorus compound are used in respective amounts such that the phosphorous/titanium atomic ratio is in the range of from 0.01 to 10, and a catalyst comprising at least one tin compound selected from the group consisting of metallic tin, tin oxide, tin sulfide, tin halide, tin carboxylate and tin alkoxide (pages 7-8) with "tin butyrate and tin 2-ethylhexanoate,".

Amend claim 9 to replace a catalyst comprising at least one titanium compound and at least one phosphorus compound selected from the group consisting of phosphoric acid, phosphorous acid, a phosphorous ester and a phosphorus compound

Application/Control Number: 10/539,054 Page 3

Art Unit: 1796

represented

by the following formula (4):

(COOH) a

$$\begin{array}{c}
O \\
\parallel \\
\langle R \rangle_m - P - \langle OH \rangle_{3-\infty}
\end{array} \tag{4}$$

wherein m is an integer of 1 or 2, and each R independently represents

wherein n is an integer of from 0 to 3, wherein said at least one titanium compound and said at least one phosphorus compound are used in respective amounts such that the phosphorous/titanium atomic ratio is in the range of from 0.01 to 10, and a catalyst comprising at least one tin compound selected from the group consisting of metallic tin, tin oxide, tin sulfide, tin halide, tin carboxylate and tin alkoxide (pages 11-12) with "tin butyrate and tin 2-ethylhexanoate,".

Amend claim 10 to replace a catalyst comprising at least one titanium compound and at least one phosphorus compound selected from the group consisting of phosphoric acid, phosphorous acid, a phosphorous ester and a phosphorus compound represented

by the following formula (4):

(COOH) a

wherein m is an integer of 1 or 2, and each R independently represents

wherein n is an integer of from 0 to 3, wherein said at least one titanium compound and said at least one phosphorus compound are used in respective amounts such that the phosphorous/titanium atomic ratio is in the range of from 0.01 to 10, and a catalyst comprising at least one tin compound selected from the group

Art Unit: 1796

consisting of metallic tin, tin oxide, tin sulfide, tin halide, tin carboxylate and tin alkoxide (page 16) with "tin butyrate and tin 2-ethylhexanoate,".

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 3, 10, and 11 as amended are directed towards methods of producing polytrimethylene terephthalate with a reduced cyclic dimer content, and low cylic dimer formation index, where the polycondensation reaction uses a tin butyrate or tin 2-ethylhexanoate catalyst. While tin catalysts are known polycondensation catalysts in polytrimethylene terephthalate resin production (See Doerr et al, U.S. 5,340,909 and Kelsey et al. US 2002/0009353), the prior art of record does not teach or suggest using these specific species of tin catalysts as polycondensation catalysts in a polytrimethylene terephthalate production method. As the catalysts known in the art are organotin or tin metal catalysts (Doerr et al. 4:35-42), a person having ordinary skill in the art at the time of invention would not be motivated to change to the claimed non-organotin catalyst without a teaching or suggestion from the prior art. Additionally, tin carboxylates are known in the producing aliphatic polyesters through a ring opening reaction (See e.g. Takada et al. (5,484,852). However, as the reaction mechanism in the ring opening reactions is distinct from the instant polyesters, a person having ordinary skill in the art at the time of invention would not have a reasonable expectation of success in using the catalysts in the claimed process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Liam J. Heincer whose telephone number is 571-270-3297. The examiner can normally be reached on Monday thru Friday 7:30 to 5:00 EST.

Application/Control Number: 10/539,054 Page 5

Art Unit: 1796

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Eashoo can be reached on 571-272-1197. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
